Hi Addictedangler, thanks for your recommendation to book soon, I agree that we should reserve someone soon since it's bound to be a popular weekend (I'm hoping most people will be doing things in town so perhaps the rivers won't be as crowded). We're coming from Northern CA, and thought it would be fun to try some stream fly fishing if/when we visit Gettysburg (we've never been to the area but reading through all the posts we wanna experience some of the PA waters ourselves!) But I may be losing my job in the next few weeks so that would put this trip on hold, so we'll see. :)
