I am just starting to get into fly fishing. I have already practiced casting so I am not completely new. What I would like to know is the gear I would need. I will be fishing for trout in Hay Creek and panfish in the Schuylkill River. I will probably end up catching the occasional smallmouth too(they aren't big, maybe 8 to 12 inches average). I need to know what weight rod I will need, what size leader/tippet needed, and what size flies I should concentrate on.
