Welcome to the forum.

Given Cathy's recommendation you should consider getting a combo outfit which includes rod, reel and line. Cabela's has the largest selection.

### [Rod & Reel Combos](#)

IMO, the go to fly would be a woolly bugger size 8 and 10 in black and olive.

I'm still a novice at fly fishing for trout and don't want to give advice on other flies or tippet and leader sizes.

I'm sure some other more experienced members will supply additional information.
