WOW!!!! There us someone besides me on here that is old enough to remember "Chauncy Livelys Flybox" in the back of PA Angler , for years. I never met him or for that matter know much about him other than waiting for the next months pattern to be published. I learned so much from him it's unreal , his method for tying extended bodies is one of the best , it can't be done any easier than his way. MAN this is a GREAT post and brings back fond memories. THANKS!!!!
