Tying instructions (abridged):

Cut a bunch of body hair abt as thick as a pencil.

hold hair in bundle on shank and bind to hook just behind eye, allowing abt 1/8 inch of butts to project in front.

Hold hair in left hand. spiral wrap in firm, spaced turns toward bend.

When you reach bend, continue to wrap hair in a free extension for a distance equal to the hook shank length.
Make 2 extra turns at rear-most winding.

Wind thread forward in similar spacing to eye. Whip finish.

Trim off excess hair at rear and finish-trim rear to a rounded profile.

trim hair in front to a neat head and apply black lacquer to the head and the whip finish windings.

Apply clear lacquer to the extra winds at rear.
