I do not know what happened at Boiling Springs, but from what I saw at the Lehigh Canal it was overall a success. Sure I had some rude parents, but the kids were having a blast. Why does it matter how many fish a kid caught? If 18 was a lot, what do you find to be ok? 2 and leave, even if they C&R? My kids caught 7 each. Is that to many? should we have stopped at 2 and left?
