Dear Jdaddy,

I have an Olympus TG810, I like it but frankly I like your idea better.

Like yourself, underwater shots of fish do nothing for me and I personally have no interest in video capabilities either.

I've bought a couple \$ 20.00 cameras on ebay that take decent pictures and use AA's. They are even easier to write off than \$ 100.00 ones. 😊

Regards,

Tim Murphy 😊
