Well my buddies and I had scouted before hand and knew where the most fish were. Not knowing how many people scouted and or would show up, we made the decision to get there early and set up. We arrived around 5:30 expecting the lot to be full. We pulled in and not another person was there. We set up our spot and went back to the car and stayed warm. Around 630 people showed up and my two friends and oldest went and hung out. I ended up driving around Bethlehem for 40 minutes trying to find a bathroom for my youngest to go #2. It really was a great experience, because my kids got a small taste of the craziness all of my friends and I partake in the first day.
