I ended up driving around Bethlehem for 40 minutes trying to find a bathroom for my youngest to go #2.

Interesting and good point. I think that they should have minimal bathroom facilities at any of the locations that they choose. This may be a suggestion for Andrew Desko at the PFBC who headed up the event. The park that I assisted at had a few port-a-potties.

There was a park bathroom.....that was locked. There was also 1 porta potty.....it was locked. Agree, bathroom facilities need to be brought in if not available.
