I decided to buy the 4 weight Wind River Combo (<http://bit.ly/10e839w>). Got it yesterday, and I'm kind of regretting not having also bought another one! I'm not sure I'll ever be able to happily use my cheapy "custom" 6 weight again.

The 8'6" 4 weight is really great - extremely light, and a faster action than my current rod. I was able to cast my indicator nymph rig to spots that I could never have gotten to with my other rod - it felt very precise.

Also I love the Wind River reel. It looks great, is really light weight, has an easily adjustable drag, and takes in line very smoothly. The fly line that the reel was spooled with was actually a pretty decent line. I was worried that I'd get a cheapy line that I'd have to replace, but I'll fish this one for a while.

The combo was definitely worth the \$89 that I paid for it.
