Steelhead rod

I've been looking to buy another steelhead rod and want a 10' #6 or maybe a 10' #7. Do any forum members own any Grey's rods? I'd be interested hearing from anyone with a 9' - 10' #6 or #7 rod. I'd like to know how they like it and how it fishes. I have a 10' 6" #6 switch rod but to tell you the truth after a day of high sticking that rod my arm is about ready to fall off.

I'm specifically interested in the GRXi+ 10' #6 GRXIP85. This rod is perfect for Erie steelhead, probably too light for Cat or Salmon River steelhead but I have a 9' #7, 9' #8 for those bigger fish and bigger flies.

Thanks!
