"Sounds like a rant to me"

Well if it a rant it is with a smile on my face and hoping you all have one too.

"And you mentioned using a map" I was wondering if anyone would be observant and pick up on that and call me out on it.

"And I'm assuming you used a fly rod, reel and line, not a stick with some natural hemp for line.. "

Well if the truth be told I was using a lancewood rod, with my newest model Vom Hofe winch, braided horse hair line and the best silk gut money could buy. Theo had tied me some lovely snelled wet flies for our excursion to the Beaverkill to load up with a few hundred native speckled trout.
