This is a nice boat at a fair price. Plus he has the Cataract oars which are at least \$400 for the pair. Freight from Hyde in ID to PA was \$800 in 2012. It looks like a standard height gunwale and they are harder to get in and out of especially when the boat is moving.

But I can see why he has the standard gunwales if he bought it specifically for the Salmon River. They keep the splash and spray out of the boat.
