Do you still have this 10' #7? Any pictures? If the condition of the cork was a 10 when it was new what is it now? Does it have a Full Wells grip? What kind of reelseat all metal or metal with a wood spacer? Any scratches or nicks on the finish? I'm not familiar with this rod what would you consider the action? Fast tip only or medium fast flexing down towards the upper 1/3 of the rod. Have you ever tried it with a #6 line by chance? Cloth sack and rod tube? Transferable warranty? Thanks.
