McSneek: Could have been the WCO, my co-worker, or me. I put a number of people onto fish who to that point had caught few or none at all. I was encouraging individuals to move from the colder, shallow coves to deeper water and to switch from bobber fishing to bottom fishing, except in cases where slip bobbers allowed them to fish deeper. Since I see that you are from Lancaster Co, I remember speaking with an angler from Lititz and helping a family from Leola.
