I took my grandson out for this. We went to Green Lane Park in Montgomery County. I did not take a rod, just wanted to help my grandson, who is 5, enjoy trout fishing.

The lake was filled with folks. My general impression was that it was a jump start for the dads to get a day of fishing in early, before the start of the season. Most of the fishing I observed was done by the mentors.

My Grandson did not catch any fish but we had a great day and hopefully he will ask to go again. His mother has told me that he has spent every day since cleaning and sorting his stuff in his tackle box.

When he is old enough I plan on teaching him how to fly fish. I hope that the intent of the Fish Commission for having this day was to expose youngsters to the joy of fishing.

Sorry to hear about so many fish needlessly killed in other reports concerning this event.
