I tied some using thin foam strip doubled over a few times using that same method. They look similar to this:

[Umpqua O-Ring Foam Indicators, Cabelas](#)

I haven't tried them yet (Umpqua'a or mine) so I have no idea how well they cast or suspend, though they do float ok in the sink.

By the way, 5/16 inch o-rings are 10 for \$2.60 at Lowes.
