I open my fly box and either go "eney, meniey, miney" or "oooh - pretty"

Seriously - there are certain patterns that work almost every where, such as the zebra and other midge patterns, Pheasant Tailed nymphs, wooly buggers, beadhead soft hackles and even the infamous Green Weenie. I'm still a novice, but start with these patterns and rotate through the fly box till I find something that works.

I'm also not too proud to ask another fisherman if one's around.
