It's hard for me not to go out on opening day, it's been almost 50 years now. This year was my first fly rod only opening day, I was mostly a minnie and egg man. I got skunked on Mountain Crk in the morning, (water temp 40.9) No one was catching. I headed over to the Breeches at Allenberry and ran into a nice little hatch and picked up 7. My only regret is that I didn't bring home a couple trout to smoke. That's tasty. Oh well there's always the grocery store.
