My favorite rod is my Fenwick FF75. Is your rod glass or graphite? If it's glass, get this reel:
[http://www.amazon.com/Eagle-Claw-Gran ... words=Eagle+Claw+fly+reel](http://www.amazon.com/Eagle-Claw-Gran... words=Eagle+Claw+fly+reel) (and clarify w/ the seller that you're buying the 780, not the 567 model). It balances the old glass rods really well and is loud as ballz! I can't wait to get after the SMB w/ my 7wt glass this year.
