Doesn't anyone really read a post before they fire off a response? Like Swattie 87 talking about changing your expectations on opening day on an ATW. Once more, for everybody's benefit, as Peterm stated in his original post and as I reiterated in my post above, the incident he was describing happened on a CATCH AND RELEASE section of the Bushkill. To me that's what makes what happened so unusual and disgusting. I would fully expect it to happen on an ATW on opening day or any other day of the year, but not on catch and release water by another fly fisherman.

But why does being a fly fisherman on catch & release water keep someone from doing these things?

It doesn't, there's idiots EVERYWHERE! It is probably less of an issue on FFO/CR water though. Fly fisherman seem to be more conscientious and curtiuous.
