I was definitely a bass guy. In fact, I wanted nothing to do with fly fishing until I heard that you can fish for smallies with a fly rod. I tolerated trout on family vacations and stuff, but my summers were spent on the Conestoga targetting bronze backs.

Everyone is different though. My brother and dad were drawn to trout. Even now, I think I'd have a very hard time convincing my dad to join me on a SMB fishing trip, especially when he knows he could be catching trout instead.
