Well.....I have never had to sell anything for reasons that I just simply need the cash to help cover somethings, but that time has come and I have to let these go to the next guy.

Both rod and reel are in great shape. I am asking \$160 to help recover the cost of the rod since I was given the Ichthus reel. Price covers payapl and shipping.

The reel is spooled up with Risen's 4wt line. I do enjoy this set up, but alas.....I need the money more. You guys cannot go wrong with a Risen Reel. I have had a great time with this and not its time for someone else to have a great time with this set up.

you can check out pics of the reel and a [short review here](#)

PM me for more details
