Giant tiger trout in PA? Who'd a thunk it?

Below are two photos of tigers caught here in PA. They were caught in a place that isn't stocked. Somebody may have bought and tossed them in there or they could be a result of natural spawning. I never knew they grew to such a huge size. I saw a photo of one that was around 10 pounds taken by a walleye fisherman last spring. May have to start an Tiger over 20" club.

Third photo may be the father of the tigers....geez those are some big fish.
