URL:

Too dark. Too much weight. Ditch the 200R (or whatever) hook.

My CFL imitations are much different.

Hook: Any curved caddis style hook

Tail: Short stub of tan Antron

Body: Light ginger/tan SLF dubbing

Back: Scud back

Rib: Fine mono

Weight with gold bead and maybe a few wraps of lead.

Sorry, I don't have a pic, but the end result is similar to the pattern found at this link, but a little better IMO.
