I was thinking about trying to tie Higas SOS and Ians Brass Ass, not sure what hooks to get. Orvis has the right ones but they are pretty expensive. I was thinking about buying from Allen, not sure what hooks would be the right one though. I was thinking the N204 for the SOS and N304 for the Brass Ass. Any thoughts? If those aren't the right ones any where else I can get relatively cheap hooks for these flies?

Also what other patterns can I tie on the hooks I get for those flies?

Thanks for any help, still pretty new to tying, and the hooks tend to confuse the crap out of me

Edit: <http://www.allenflyfishing.com/fly-tying-hooks/> So you guys don't have to go and look it up yourself, thought I would just throw it up
