Thanks to all for the comments and suggestions.

Fox and Lv2 - Working on getting the hair further back and avoiding crowding the eye. Tied some more last night and was batting 59%. Guess my brother's fly box will get well stocked 😊

PAparise - Tibbets were cut-offs from a previous tie. Figure I can use them as I work on technique and conserve materials.

Frequent - Not intending to start a vise collection. In fact my plan is to offer up the previous vise to a newbie to help them decide if they want tie or not.

Turkey - Thanks. Only tied a couple on it and am much happier sitting at the bench.

Nfrechet - Thanks - The wing does fan out, nicely, I think and does not show well from the angle in the pick. As to the tails, I've tied a couple with the yarn used in your photo and go back in forth as to which I like better. The yarn type tails are easier to tie in and can be trimmed to the desired length in comparison to the proper way to the tibbets.

Thanks to all.
