Nice looking spoon fly jay. Hopefully it wobbles and flutters well. my experience has been that it's hard to get spoons to run right, but when you do they're great flies. I'd suggest trying to incorporate some glitter so it flashes more.

Water temps on the lower sus q are rapidly approaching the magic 50 degree mark and guys are starting to report catching a few. any day now... <http://buoybay.noaa.gov/locations/susquehanna.html>
