Nice looking spoon fly jay. Hopefully it wobbles and flutters well. my experience has been that it's hard to get spoons to run right, but when you do they're great flies. I'd suggest trying to incorporate some glitter so it flashes more.

Yeah I'm thinking the action could be hit or miss. Next one I may try and make a little bit wider. I guess I'll see how this one moves first though.

And you read my mind w/ the glitter. Probably won't get to a craft store anytime soon so I may just cut up some krystal flash or angel hair and mix it into the next one.
