Also here are email replies that I got when I asked where these Kits were made:

"Dear Eric:

Thank you for contacting Cabela's Customer Relations Department Live Help.

The Cabela's RLS+ Fly Combo is made in China.

I hope this information is helpful to you. Your interest in Cabela's products and services is appreciated. I look forward to working with you in the future."

And:

"Eric,

Our Starter Package components are manufactured for us by our supply factory in China. Our Lines come from Canada, the backing comes from CT and our flies are made for us by a supplier in Kenya. We are responsible for loading the reel with backing, line and leader and we assemble all the components for the package ourselves.

Heidi Dodds  
VP Sales

Wild Water Fly Fishing, LLC"

FWIW.

Eric
