It is very difficult to ignore a place that would be so much nicer if people cleaned up after themselves. I have always believed that it is better to make a place somewhat better than before. If we all would view with the same and take 1 trash bag with us when we go fishing and pick up, it will make a difference.

I couldn't agree more! It's a real shame, but I found this collection of filth on a very remote stream (go figure) in the Pocono's. If it will fit in my day pack, it will get picked up and taken out. I can not/will not ignore it.
