I've been ordering almost exclusively from bigyflyco.com since I discovered them. Free shipping for orders over \$35, and the flies are all really cheap! All of the flies I've gotten from them, except for maybe 2 or 3 that I can remember have been of good quality. I also really like the midge boxes and other cheap fly boxes they sell.

The only thing they don't really have is tungsten head flies. If you want those, you'll have to go someplace else.
