What soft hackle pattern(s) might you suggest?

I do pretty well with a simple soft hackle pattern.

Hook - #14 or #16 wet fly

shuck - sparse tan antron or equivalent

abdomen - Loosely dubbed tan or green dubbing

thorax - darker dubbing (cinnamon or grey)

hackle - couple of turns of partridge

I usually rib it with fine gold wire or tying thread. After you finish, brush out the body to make it "buggy."
