csoult.....the term "the sudden jnch" is plaguerized from the book by Leonard Wright called "Fishing the dry fly as a living insect" it is deadly and so is skipping a caddisfly imitation up under a bush or log or ledge the term the "sudden inch" is around 50 years old. read the book if u cn get it it's a great read.

Osprey, I recently found a nice first edition(1972) hardcover copy of "Fishing the Dry Fly as a Living Insect". I just started to read it this morning. ChapterThree is devoted entirely to "The Sudden Inch". You are right it is a very good book. I like how he experimented to find out what would work and what would'nt. I recommend this book to any flyfisher.
