Here's another tidbit, from a report by Rex Energy. Note the reference to an 80 acre well spacing.

03/30/2010

Rex Energy - Marcellus Shale Reserves

“To try and illustrate the future reserve potential from our current 68,700 Marcellus Shale acres. To start we have assumed that only 75% of our net acreage will be drilled on 80-acre well spacing, which is the spacing we are currently using.
