Wingding,if that is where I think it is you were just downstream from the Lehigh Country Club and that municipality is lower Macungie twsp,however you were very close to Emmaus.Glad you had a good time there and that final fly selection is always a good combo.If you get in town again and need some info pm me and I would be glad to help.By the way that area is still city parkland,that's why there is no posting,it starts just upstream in sections but there is miles of LL available to the public.
