I parked off of mountain road where the bridge is and the old cabin, I fished down using a sculpin, green weenie and a green wooly and sad to say nothing at all

I jumped in the car after 2 hours and headed over to furnace

About 3 cars there I fished from that bridge and down stream about a half of mile once again nothing

I can't assume that it's all fished out

Not a strike and I didn't even see a fish
