Unless you count suckers and a very pretty pumpkin seed. It's been years since that happened. On the plus side I saw 6 deer, 3 mink, and some very cool birds so it was still a good day outdoors.

You recognized the good in being out, rather than dwelling on not getting any trout. That's a big plus. We'd all rather catch fish, but should be able to enjoy our outings when we don't.

Good for you and I hope your next outing includes some success.
