Dear Joe CVTU has been very activating in trying to get answers on the Pros and Cons of draining Boiling Springs Lake. I have been personally involved in meeting with our local Pa Fish and Boat staff and we are currently wanting for a report. And it is more than one wealthy person who owns property on the lake that has been pushing for this the past few years to have the lake drained. Please feel free to PM me if you have any more questions. But the local chapter has been involved with this for the past few years and we have been actively working with PA Fish and Boat.
