The fingerling clipping program was only to be conducted for 5 years. 2011 was the last year that fin clipped fingerlings went into the river. The PFBC did stock "surplus" fingerlings last spring (2012) but they were not clipped. There may or may not be a fingerling stocking this year, but nothing is scheduled at this time.

Fishing Release Date Info - Update.

Next weekend the releases will be capped at 400 cfs and will last through out the weekend.

The following designated fishing release weekends the releases will be conducted as follows, IF inflow to FEW is above 400 cfs.

1AM Saturday the release will be cut to 400 cfs

1PM Saturday the release will be increased to match inflow if above 400 cfs

Same schedule for Sunday.

If inflow is below 400 cfs, the release will be set to match inflow.
