Fletch and I caught a lot of trout and each had the best fishing day of our lives.

This is the complete opposite of everything I've heard/read about Mud Run. Did they dump a bunch of stockers in there?

As in the past, Mud Run was stocked in the Park (on 4/11 according to the FBC stocking list). It is usually stocked in the organized camping area, where there's a gated road that is opened for the stocking truck to drive in close to the stream. A few hundred yards downstream of the access road, the stream bends and ends in big glide and cliff. Few, if any stocked fish are found downstream of that point. HTH.
