Stopped by the Quitty today and talked to a couple of fishermen.

Every one of the guys told me they caught Brookies.....all small in the 8-10 inch range. The State was scheduled to stock the Quitty on thursday with Browns and Bows (web-site). I didn't see or here of a brown or bow caught today. Don't think the club up that way stocked this week. My question is did the state substitute brookies or was this just a fluke. By the way an older gentlemen said he saw the state put the brookies in. Maybe Mike can chime in.
