Found this pattern on line. It is a periodical cicada by Loren Williams. I kind of liked the look of the fly. It has a fairly small materials list and is very easy to tie. I tied up a few on a size 10 2XL dry fly hook. I'm hoping to get a chance to smash some smallies on top using this pattern this year. For you southeastern PA guys ..... not sure if the Cicada hatch will happen or not but I'm figuring on having some with me just in case.
