Dear InTheMend,

"Really nice flies! They look great to me." Thanks for the compliment!

"The one thing I would say is that you should crimp you barbs.."

Some of us prefer to fish barbless and then there those of us who do not. I include myself in the latter group and have done so for over fifty-five years of fly fishing.

My contribution to fish mortality is miniscule using barbed hooks compared to the guys I see who dick around playing 15" trout for ten minutes and then have a ten minute photo op dragging the fish out of the water for the umpteenth time and then let the buddy hold the fish so he can get a picture too.
