Was there last spring and didn't catch a single stockie, but did catch some of **the most beautiful wild browns ever**. I still will never understand why iyt is stocked, IT's a WILD TROUT STREAM PFBC, IT DOESN'T NEED TO BE STOCKED.

Chaz,

First time I have *ever* heard you gush about wild brown trout! 🤪

You may remember back, maybe 20 years ago, the FBC took Mud Run off the stocking list for a few years. During those years, the Commish felt the angler usage of the stream declined (actually it did). I was happy and you would have been happy fishing MR back then, but the FBC nixed the idea and put it back on the stocking list.

The upper section in the Park is stocked, the middle and lower section of HRSP has pretty much all wilds, and the sections below the park are stocked pretty heavily by private clubs, almost all the way down to the mouth at Lehigh River.
