That's one reason most fly fisherman I've been around I'd rather not keep company with. If I want to keep a couple stocked rainbows to eat at my campfire I'll do that. You can either come up to me and let me know how you feel in person or you can go home. I am a mostly a release fisherman as the only fish I will keep are one finned stocked rainbows and only one or two. I fish of monument road most of the time and don't keep any from the section. So if you would like to air out your issues with me in person let me know and I'll give the date and location I will be on your stream.

Hey MattM, you must be travelling in the wrong circles. I've found Fly-fisherman to be some of the most friendly folks I've ever met. If you showed up at one of the many noobie teaching events or the Jam, I'm sure you would agree.

Mr. Osprey may seem to be (to you anyway) a mean, old scoundrel, but in reality, he one of the nicest guys you ever want to meet. Don't judge people just by reading (or misreading) stuff you see on the Internet.
