OOPS, BAD ADVICE BELOW--

I thought you were speaking of Fishing Creek and Little Fishing Creek near Lamar, but I think you meant the other fishing creeks nearer to Bloomsburg. What I wrote below applies to the ones near Lamar:

*Fishing Creek would be my choice, but you'll need to avoid the cabin stretch of the gorge as Sunday fishing is prohibited. The lower gorge should be Ok to fish. You will probably have most success with nymphs and streamers. From what I can tell, tricos are not a significant hatch on Fishing Creek, if they are present at all. Little Fishing Creek has lots of small fish that will hit anything. I'm not a local, but in case any don't respond in time, this should help a bit.*
