You wouldn't have known from his courteous reply to my post. Any way I've been fishing for 33 years, fly fishing for 13 and have maybe kept 40 trout in my life. I'm all about conservation and releasing wild and native fish. But to Osprey's credit he doesn't know me from Adam and may have judged me by assuming I was not fit to be on his stream? Unfortunately for him I will probably keep my two fish again this year and so will my dad and best friend that I will be with. we will eat them cooked over a campfire with beer and whiskey and not feel one bit of remorse in doing so. Then fortunately for Osprey, after two days of fishing and exploring Bob's Creek I will go home. I'm sure the Jam is fun and I'm sure that most of the people attending are great, but there are always a few arrogant people that will only tell you how they really feel over the internet. As you can tell I don't interact here much as this isn't the first time I've been turned off by some of the conversations on this site.
