Henricksons are here:

BTW, if color is the "key" ....how does one deal with the fact that nearly every nymph shown is has a different color combination and/or is a different color altogether.

You tie 28 different patterns in 4 different sizes and 4 multiples of each, in case you lose any. I don't know about you, but I always have at lease 448 different Hendrickson nymphs in my box at all times.

You don't even want to see my dry Hendrickson box!
