Fished behind the shop yesterday from about 11:30-3. Grannoms were out but literally no top water activity. Very frustrating day. I coaxed 1 fish to rise twice, but that was about it on top. I had a few takes on some pupa and cased caddis patterns but only landed 1. Water temp was 52, so that might have a little to do with it.

btw... if you play hooky to go fish and don't tell your wife... make sure to wear sun screen.....
